About Everman

By admin

Published: 03/08/2011 - 11:33am

The City of Everman Economic Development Corporation is a proactive governmental body with a vision to work with new potential business developers that will enhance the Everman community quality of life. We understand the red tape procedures and pitfalls that the business community must endure when they want to expand or create new business.

Our goal is to streamline and work with developers during every step of the process; offer real solutions and negotiate incentives that will be advantageous to both the developer and the City; and to support the Everman businesses by creating long term partnerships so we can continue to succeed and grow.

If your company/business is truly interested in working with a revitalized, growing community, please contact us so we can begin that journey together!

Michael Nicoletti
